

PayIt Platform

**Say goodbye to scattered services.
Welcome to one consolidated resident experience.**

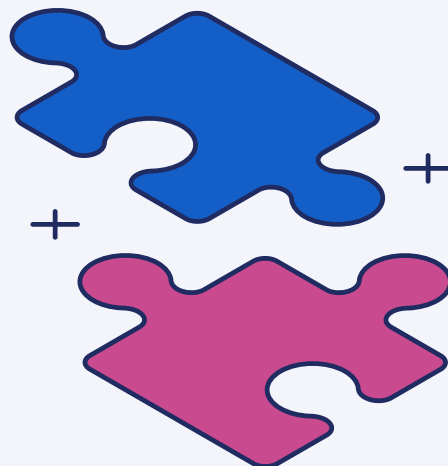

Build the ideal customer experience for any type of government transaction

Let residents access transactions, official documents, action items, payment methods and more. Any government service can be applied for, processed, and stored in the GovWallet™ across agencies and jurisdictions. Residents get a single place to manage any government-related interactions,

Integrated payments without the headache of a DIY project

Secure payment processing is embedded into the PayIt platform. We take payment compliance (PCI) off your plate, and you never have to deal with the hassle of connecting a website to a payment processor and gateway.

Offer stellar support, and make informed decisions

View and manage all your resident transactions with ProSight.

Help your staff provide better support

by keeping them updated in real time, and making it easy to issue refunds.

Gain insights that help you make informed decisions

about payment reminders and communication strategies.

See how much online revenue

you're collecting, which channels residents are using, and year-over-year adoption trends.

An engaging digital experience for everyone

Drive digital adoption by meeting residents at their comfort level with a platform that feels just like their favorite website. Paylt even conforms with the Web Content Accessibility Guidelines (WCAG), and the Americans with Disabilities Act (ADA), enabling all people to interact with their government.

IT teams love PayIt

Configure & reconfigure

- Easily update workflows when regulations change with a low-code platform.
- Empower your team with self-service.
- No need for complicated tech training.

Integration done your way

PayIt uses a software-as-a-service model to avoid the burdens of custom and on-premise solutions.

- Fast deployment– many services launch in 90 days or less
- Automatic feature updates
- No more costly change orders

PayIt takes care of compliance & security so you don't have to

With a dedicated team monitoring platform security, PayIt meets all your compliance requirements.

- PCI-DSS Level 1 Service provider
- Hosted on AWS GovCloud or AWS Canada Region Cloud
- SOC 2 Type 2 compliant
- Infosec program based on NIST-800 series standards
- ISO 27001 & 27018 certified
- FedRAMP authorized

Choose your channels

PayIt is designed to get your residents to go digital. But you may need to provide traditional options to those who aren't ready to change. Offer the channels your community needs.
